#### Description

|             |                                                                                                                                                                                                                                                                                              |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Module type | EMV 1                                                                                                                                                                                                                                                                                        |
| Description | The EMC shielding rail can be attached to the VPSym side supports or SR032. Shield termination is achieved by attaching the exposed cable shield to the EMC rail with spring shield clamps and shield clamps. Cable ties can be used to provide additional strain relief. (24 clamping tabs) |
